Amber Mehrmann, Secretary

<b>a.</b> ) <b>Ordinance #38:</b> The first reading of Ordinance #38 with one minor edit was done. Changed to read:					
<u>Unmetered Rate Schedule:</u>					
Type of Use					
Trucks filled for outside agencies or contractors shall be billed as follows:					
At the rate of .055 (five and one-half cents) per gallon.					
A policy with procedures shall be adopted by the Board for unmetered water sales.					
b.) Consider Investing In California Class Investment Pool: It was explained that this is an investment pool specifically for public agencies that complies with State Law regarding such investments. It was suggested to invest \$5,000 out of the Historical Church Fund and \$5,000 out of the contingency fund for a total investment of \$10,000. Tobyn Mehrmann, Rae Bell, and Burns Tenney would be on the account. Burns Tenne made the motion to make the investment as outlined above and Brianne Price 2 <sup>nd</sup> . Ayes Tobyn Mehrmann, Brianne Price and Burns Tenney Nays: 0 Absent: Robbin DeWeese Abstain: 0 Vacant: 1					
6) Public Response Time: None.					
7) Next meeting date, items for next agenda and adjournment: Next meeting will be on April 8, 2025; at 6:00 P.M. There being no further business the meeting was adjourned at 6:44 P.M.					
Respectfully Submitted:

#### ~ State Revolving Fund (SRF) Projects Update ~

Meeting Date: 4/22/2025 Prepared by Rae Bell Arbogast GM

#### 1. Ram Spring Improvement Project (RSIP) Project ID 4600012-008C

This is a continuation of Planning Project ID 4600012-0008P started in 2015 and completed 12/31/2020.

Funding Agreement dated 10/12/2023 ~ Estimated completion date: 2/28/2026 ~

**Budget: Up to \$1.5 Million** 

**Primary objective:** To reconfigure the Ram Spring Pumphouse and facilities to accommodate and protect the driven pipes that were installed in May of 2017 as part of the planning project. **Other objectives:** To build a 12' x16' building at the Ram Spring that can be used as a "sample lab" and to store district tools and records. To upgrade all residential water meters under a special program for that purpose. To update the stand-by generator and pumps that are over 30 years old.

#### Progress since the last ACWD Board meeting:

- As reported at last month's meeting, Sanbell engineering is waiting on their electrical engineer to
  provide the configuration for the pumphouse to complete the plan set. I followed up again on 4/3/2025
  and was assured that they should have the plans from the electrical contractor by 4/4/2025. (as of
  4/17/2025 they did get something from the electrical engineering firm, but the page numbers were not
  right so they have requested a revision)
- On March 20, 2025 Scott Woodland of Sanbell and I had a phone conference with Reilly Montarat with the Regional Water Quality Control Board's State Revolving Fund. She recently replaced Francine Fau as the Ram Spring Improvement Project's SRF project manager. Reilly needed to get up to speed on where we are with the project timeline. Scott said that the plans are 98% complete with the electrical being the last thing needed. Near the end of the meeting, I asked about the residential water meter replacement because they are listed on the Scope of the Project on the funding agreement. Other than the Jan. 2025 email from Fran saying that this would be removed from the project, there is not anything official on that. Reilly said to leave the meter replacement in the plans, but that because of inflation and budget cuts they have been having to cut projects back. Typically, this happens after the project goes out to bid and more money is needed. It sounds like meter replacement is the common thing that gets cut.
- RCAC Bridge Loan #1135-ALLE-01: The 3<sup>rd</sup> draw in the amount of \$40,150.50 was submitted on 3/20/2025 and approved on 4/2/2024 with the money deposited that day. The corresponding invoice to Sanbell-Sacramento was paid on 4/3/2025.
- The 5<sup>th</sup> disbursement request submitted in January was paid in early April, most of it went to pay back Bridge Loan Draws, plus the GM's project time through 12/31/2025. The 6<sup>th</sup> disbursement request was submitted on April 16<sup>th</sup>.
- The first quarter 2025 quarterly report was also submitted on April 16th.

#### 2. Water Tank Repair Project:

This project is to repair the water tank that was put in service in November of 2018 and that was still under warranty when it failed. This project has two main parts: 1. The warranty repair work, to be completed by the original contractor Thompson Tank (not funded by SRF) 2. The Technical Assistance Request was awarded to Coleman Engineering to oversee the repair work. (Funded by SRF)

**Status since last ACWD Board meeting**: No change in status, we are still waiting on the CP project to move forward so that we can have the second holiday test done and sign-off on the final inspection. The tank is full and not leaking.

Tank failure timeline Tank put in service Dec. 2018. 1-year warranty inspection done in Jan. 2020 found problem with rusting bolts in floor, bolts repaired in June of 2020. Tank started leaking and failure discovered: 10/30/2021 Tank drained and inspected mid-November 2021. First Technical Assistance (TA) request submitted to State Dec. 2021 and approved in Jan. of 2022 with RCAC as the TA provider. TA report provided in Dec of 2022 concluded electrolysis (dissimilar metals in contact) was the main cause of corrosion but was inconclusive as to cause of sealant failure. Warranty claim letter prepared by ACWD attorney Marsh Burch and submitted to BRCO contractors 3/17/2023. Second TA request approved May 13, 2023 with Coleman Engineering as the TA provider to oversee the repair work. Repair work scheduled for late April 2024 to avoid winter weather, started on 4/30 tank partially filled at end of July, leaks noted and report made to attorney and BRCO contractors, tank being kept partially full as long as leaks don't worsen until fire danger subsides. Water leaks below 23 feet mark stopped. Bolt holes above that level for the ladder no longer leaking as of 12/14/2024.

3. Cathodic Protection Project (CP) This project is to add cathodic protection to the water tank that was not included in the original design (other than the coating which was supposed to provide protection). A grant from the State's Urgent Needs program, for \$110,000 for this project was approved on November 16, 2023. Due to anticipated budget shortfalls, and to add money for ACWD to administer the grant, a request for additional funding in the amount of \$40,000 was submitted on October 17, 2024. Total revised budget \$150,000. Additional funding was approved on March 17, 2025.

#### Progress since the last ACWD Board meeting.

- The fully executed agreement with the additional funds was received on March 17<sup>th</sup> and Sanbell
  was given the "green light" to move forward with scheduling the installation work. (It took
  exactly 5 months to get the additional funding)
- Sanbell is now moving forward with hiring a subcontractor for the CP equipment installation. Hopefully we will have an estimated date in time for the meeting.
- RCAC Bridge Loan #1139-ALLE-02: No new draws or payments since the last board meeting.
- The second disbursement request for this project was submitted on April 15<sup>th</sup> along with the required quarterly progress report.

#### **RESOLUTION NUMBER 128**

A RESOLUTION TO AUTORIZE STAFF TO ACT IN AN EMERGENCY PER PCC CODE 22035

- 1. Alleghany County Water District (ACWD) is a public agency in Sierra County, California that provides water to the community of Alleghany for both domestic use and fire prevention.
- 2. ACWD has elected to be subject to the California Uniform Construction Cost Accounting Act (CUCCA).
- 3. Under CUCCA there is an exception to the bidding requirements of the act for emergencies that threaten the provision of essential services, such as domestic water.
- 4. Individuals authorized by resolution or ordinance to act in the event of an emergency may take necessary actions without board approval but must report all actions taken to the board at the next regular or special meeting, of the board of directors.
- 5. It is in the best interest of the district to have procedures and authorizations in place to deal with emergencies.

#### THEREFORE, BE IT RESOLVED

- **1.** That the General Manager and/or Chief Water Operator may take action in the event of an emergency per PCC Section 22035 and PCC Section 22050.
- 2. This resolution shall be attached to and made a part of the Emergency Response Plan.

**PASSED & ADOPTED** by the Board of Directors of Alleghany County Water District on the 22<sup>nd</sup> day of April 2025 by the following vote: **Ayes: Noes:** none **Abstain:** none **Absent**: **Vacant:** one

#### <u>Draft Paid Sick Leave Policy - Alleghany County Water District</u>

Alleghany County Water District (District) provides paid sick leave to all employees who have worked 30 or more days for the District within a year.

#### Accrual

Eligible employees will accrue one hour of sick time for every 30 hours worked up to a maximum accrual of 40 hours or five days, whichever is greater, per calendar year.

Accrued, unused time under this policy will carry over each year up to a maximum accrual of 80 hours or ten days, whichever is greater. The minimum amount of sick time that may be used on any occasion is two-hours. Unused sick time is not paid out upon separation of employment.

#### **Usage**

Upon successfully completing 90 days of employment, eligible employees may begin to use paid sick time under this policy up to a maximum of 40 hours, or five days, whichever is greater, per calendar year.

Sick leave may be taken for the following reasons:

- The diagnosis, care, or treatment of an existing health condition of, or preventive care for, an employee or an employee's family member;
- To attend legal proceedings, or to obtain medical treatment, counseling or other victims' services for domestic violence, sexual assault, or stalking;
- Any other purpose required by law (e.g., bereavement leave, reproductive loss leave, qualifying acts of violence, etc.).

For purposes of this policy, a "family member" is a child (a biological, adopted, or foster child, stepchild, legal ward, or a child to whom the employee stand in loco parentis), a parent (a biological, adoptive or foster parent, stepparent, or legal guardian of an employee or the employee's spouse or registered domestic partner, or a person who stood in loco parentis when the employee was minor child), a spouse or registered domestic partner, a grandparent, grandchild, and sibling. It also includes a "designated person," which, for purposes of this policy, means a person identified by the employee at the time the employee requests paid sick leave. An employee can designate one person per 12-month period, measured from the time the employee first designates a person.

Unless the employee advises the employee's supervisor otherwise, the District will assume employees want to use available paid sick leave for absences for reasons set forth above and employees will be paid for such absences to the extent they have paid sick leave available.

Employees will be notified of their available paid sick leave on each itemized wage statement.

Notice of sick leave use shall be given to the employee's supervisor, orally or in writing. If the need for paid sick leave is foreseeable, the employee must provide reasonable advance notification. If the need for paid sick leave is unforeseeable, the employee must provide notice of the need for the leave as soon as practicable.
